Help The United States Navy Memorial Preserve The Records of Our Nation's 'Greatest Generation'

The Navy Log is Now Free

WASHINGTON – The United States Navy Memorial, located on Pennsylvania Avenue in Washington, D.C., was established to honor the men and women of the United States Navy – past, present and future. The Navy Log was established in the 1980s as the permanent public registry where Sea Service members and veterans could record their individual record of service. In an effort to register as many Sea Service members and veterans as possible, this service is now being offered for **free**.

The goal of The United States Navy Memorial is to have all the eligible veterans and service members enter their data into The Navy Log. Upcoming enhancements to the Log include a blind email system that will permit any two shipmates with their information (including email addresses) entered in The Navy Log to find and contact each other. Long-lost shipmates will be able to be reconnected, and shipmates of today will be able to find each other and stay connected.

Currently more than a half-million people are listed in The Navy Log, but there are millions more who can, and should be, enrolled. Statistics show that our World War II and Korean War-era veterans are dying at an alarming rate of more than a 1,000 per day. It is imperative that we have a permanent and publicly accessible record of their service.

Help us enroll our 'greatest generation' in The Navy Log today. Eligible veterans, service members, friends and family can simply enter the appropriate information at www.navy memorial.org or call The Navy Log hotline at 1-800-NAVY LOG (1-800-628-9564).
